

# Forever Move - Regain Your Youthful Independence

Imagine being able to move about freely - no constraints, no limitations. The ability to move is often something we take for granted, but is more than putting your joints and muscles into motion. Moving without limitation allows you the freedom to accelerate toward your goals.

We know that how you physically feel greatly affects all areas of your life—personal, business, social and emotional. After all, this idea and our philosophy around it is where Look Better. Feel Better. came from.

That's why we developed Forever Move™, a natural blend of two powerful ingredients that support healthy muscles and joints not combined anywhere else in the world!

We've known for a long time that glucosamine and chondroitin help joints and muscles—but we wanted more. We needed something that worked fast, with clinically studied results, so we sourced the best of science and nature to create a combination that provided confirmed results in as little as 7-10 days. In fact, it is shown to be nearly 5x more clinically effective than glucosamine and chondroitin alone!

The membrane of egg shells, called NEM®, is a natural, food-sourced ingredient that delivers chondroitin, hyaluronic acid, glycosaminoglycans and collagen. This studied and cutting edge ingredient supports a healthy range of motion, enhances joint comfort and flexibility, promotes healthy cartilage, decreases stiffness in joints and promotes fast recovery from exercise. Who would have thought that such a delicate ingredient could provide so much power?

To this, we added another patented ingredient: curcumin from turmeric - and not just in any form - but a version called BioCurc that uses a proprietary, patented emulsification technology. Turmeric has been known for thousands of years to support joint health and bolster your body's antioxidant power, but this patented process increases the bioavailability by 200%--allowing your body maximum absorption to really put this amazing ingredient to work.

We know nature has the bounty to provide amazing benefits and we're so grateful we have the science to extract and perfect these particular ingredients in this powerful product.

Get Forever Move™, and get moving.
